**Replacement Paragraph 37 C.F.R. 1.21(b)(1)(ii) - Page 5 of the Specification**

5  
B2  
Figure 4 is a detailed perspective view of the upper end of the marker showing the lower end of a flag and flares;

**Replacement Paragraph 37 C.F.R. 1.21(b)(1)(ii) - Pages 6 and 7 of the Specification**

A plurality of receptacles 30, 32 and 34 are provided in the upper surface 24.

10 Receptacle 34 is shown as having a generally arcuate shape. Similarly, depending  
B3  
receptacle 32 is generally circular. Receptacle 30 is shown as an elongate, rectangular  
opening. As will be explained, the receptacles are intended to temporarily secure or  
mount warning devices such as flare or flags and may be various shapes in accordance  
with the shape of the base or stem of the device to be attached. The receptacles 30, 32  
15 and 34 each have a downwardly depending wall 35 which extends into the hollow interior  
36 of the base to provide support for the article.
